About This Playbook

30 expert prompts for customer success managers covering onboarding, health monitoring, churn prevention, expansion revenue, and advocacy.

What You'll Get

• 30 expert prompts • Professional frameworks • Placeholder system • Expert tips per prompt

Who It's For

• Entrepreneurs • Professionals • Teams • Freelancers

How to Use This Playbook

- 1 Copy the prompt — Select the full prompt text from the section that matches your goal.
- 2 Fill in the brackets — Replace all [PLACEHOLDER] text with your specific context, brand, or product.
- 3 Paste & generate — Paste into ChatGPT, Claude, Gemini, or your preferred AI tool.
- 4 Iterate — Use the output as a starting point. Refine with follow-up prompts for best results.

Table of Contents

Section 1 — Onboarding (7)

- #01 Customer Onboarding Playbook
- #02 Kickoff Call Agenda
- #03 Onboarding Email Sequence
- #04 Success Plan Template
- #05 Technical Onboarding Guide
- #06 Training Program Design
- #07 Stakeholder Map Template

Section 2 — Health & Engagement (6)

- #08 Health Score Design
- #09 QBR (Quarterly Business Review) Agenda
- #10 CSM Check-in Cadence
- #11 At-Risk Account Identification
- #12 NPS Survey and Follow-Up
- #13 Customer Feedback Loop

Section 3 — Expansion & Upsell (6)

- #14 Expansion Revenue Playbook
- #15 Upsell Opportunity Identification
- #16 Multi-Year Contract Strategy
- #17 Executive Sponsor Engagement
- #18 Land and Expand Strategy
- #19 Renewal Forecasting Model

Section 4 — Churn Prevention (6)

- #20 Churn Analysis Framework
- #21 Save Conversation Script
- #22 Churn Early Warning System
- #23 Downgrade Prevention Strategy
- #24 Win-Back Campaign Design
- #25 Customer Success Technology Stack

Section 5 — Advocacy & References (5)

- #26 Customer Reference Program
- #27 Case Study Production System

#28 G2/Capterra Review Generation
#29 Customer Advisory Board Design
#30 Advocate Marketing Program

Section 1

Onboarding (7)

Prompt #01

Customer Onboarding Playbook

Write a complete customer onboarding playbook for [B2B PRODUCT].

You are a customer success leader at enterprise SaaS companies. Write a complete customer onboarding playbook for [B2B PRODUCT]. Deliver: Phase 1 (Day 1): Kickoff call agenda + success plan template Phase 2 (Days 2-14): Technical setup + training schedule Phase 3 (Days 15-30): Activation milestone + check-in For each phase: CSM activities + customer activities + success metrics

Placeholders: [B2B PRODUCT] Your product

■ **Tip:** The kickoff call sets the relationship tone for the entire customer lifetime. Prepare obsessively.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #02

Kickoff Call Agenda

Write a kickoff call agenda for [PRODUCT] that sets customers up for s

You are a customer success leader at enterprise SaaS companies. Write a kickoff call agenda for [PRODUCT] that sets customers up for success. Deliver: 1. Introductions and relationship building (5 min) 2. Customer goals and success definition (15 min) 3. Implementation timeline review (10 min) 4. Key contacts and escalation path (5 min) 5. Next steps and action items (5 min) + Pre-call email template

Placeholders: [PRODUCT] Your product

■ **Tip:** The kickoff call is done with the customer, not to the customer. Lead with their goals, not your process.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #03

Onboarding Email Sequence

Write a 6-email onboarding sequence for new [PRODUCT] customers.

You are a customer success leader at enterprise SaaS companies. Write a 6-email onboarding sequence for new [PRODUCT] customers. Deliver: Email 1 (Day 0): Access + quick start guide Email 2 (Day 2): First value milestone tip Email 3 (Day 5): Feature they haven't tried Email 4 (Day 10): Check-in + offer office hours Email 5 (Day 14): Activation win celebration Email 6 (Day 21): 30-day survey

Placeholders: [PRODUCT] Your product

■ **Tip:** Day 1 feature activation predicts 12-month retention more than any other signal.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #04

Success Plan Template

Create a customer success plan template for [B2B PRODUCT].

You are a customer success leader at enterprise SaaS companies. Create a customer success plan template for [B2B PRODUCT]. Deliver: Structure: Business goals → Product adoption milestones → Timeline → Stakeholder map → Risk factors → Escalation path For each goal: Metric + target + current baseline + timeline + CSM action

Placeholders: [B2B PRODUCT] Your product

■ **Tip:** Success plans without metrics are wishes. Every goal needs a number and a date.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #05

Technical Onboarding Guide

Write a technical onboarding guide for [PRODUCT]'s implementation.

You are a customer success leader at enterprise SaaS companies. Write a technical onboarding guide for [PRODUCT]'s implementation. Deliver: 1. Pre-implementation requirements checklist 2. Step-by-step setup guide 3. Integration instructions (most common tools) 4. Testing and validation protocol 5. Common issues and solutions 6. Support escalation path

Placeholders: [PRODUCT] Your product

■ **Tip:** Technical onboarding that takes longer than expected is the #1 cause of early churn.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #06

Training Program Design

Design a customer training program for [B2B PRODUCT] at [CUSTOMER TYPE]

You are a customer success leader at enterprise SaaS companies. Design a customer training program for [B2B PRODUCT] at [CUSTOMER TYPE]. Deliver: Live training: Kickoff training session agenda Async training: Video library structure Self-serve: Knowledge base organization Advanced: Power user training design + Training effectiveness measurement

Placeholders: [B2B PRODUCT] Your product [CUSTOMER TYPE] SMB/enterprise/self-serve

■ **Tip:** Training that teaches workflow (not just features) reduces support volume by 40%.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #07

Stakeholder Map Template

Build a stakeholder mapping framework for [B2B PRODUCT] enterprise acc

You are a customer success leader at enterprise SaaS companies. Build a stakeholder mapping framework for [B2B PRODUCT] enterprise accounts. Deliver: Roles to map: Executive sponsor, champion, power users, gatekeepers, detractors For each: Influence, engagement level, communication preference, success definition

Placeholders: [B2B PRODUCT] Your product

■ **Tip:** Multi-stakeholder relationships survive champion departures. Map and engage all of them.

ChatGPT ✓

Claude ✓

Gemini ✓

Section 2

Health & Engagement (6)

Prompt #08

Health Score Design

Build a customer health score for [PRODUCT] that predicts churn 90 day

You are a customer success leader at enterprise SaaS companies. Build a customer health score for [PRODUCT] that predicts churn 90 days out. Deliver: 1. Health dimensions (login frequency, feature adoption, support tickets, NPS) 2. Weighting for each dimension 3. Scoring formula (0-100) 4. Alert thresholds: Red (<40), Yellow (40-70), Green (>70) 5. Health score improvement playbooks per color

Placeholders: [PRODUCT] Your product

■ **Tip:** The best health scores use 5-7 signals max. More signals create noise, not signal.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #09

QBR (Quarterly Business Review) Agenda

Write a QBR agenda for [PRODUCT] with [ENTERPRISE CUSTOMER].

You are a customer success leader at enterprise SaaS companies. Write a QBR agenda for [PRODUCT] with [ENTERPRISE CUSTOMER]. Deliver: 1. Business outcomes achieved this quarter (with metrics) 2. Product adoption analysis 3. Challenges and how they were resolved 4. Roadmap preview (what's coming) 5. Goals for next quarter 6. Expansion opportunity discussion + Pre-QBR prep guide

Placeholders: [PRODUCT] Your product [ENTERPRISE CUSTOMER] Customer type

■ **Tip:** QBRs are retention tools, not reporting sessions. Lead with their outcomes, not your metrics.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #10

CSM Check-in Cadence

Design a check-in cadence for [PRODUCT] CSMs across customer tiers.

You are a customer success leader at enterprise SaaS companies. Design a check-in cadence for [PRODUCT] CSMs across customer tiers. Deliver: Enterprise (>\$50K ARR): Weekly touch + monthly business review Mid-market (\$10-50K ARR): Bi-weekly touch + QBR SMB (<\$10K ARR): Monthly email + quarterly review For each tier: Agenda template + communication channel + escalation triggers

Placeholders: [PRODUCT] Your product

■ **Tip:** CSM capacity math: 1 CSM can handle 40-60 SMB accounts or 15-20 enterprise accounts. Design accordingly.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #11

At-Risk Account Identification

Build an at-risk account identification system for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Build an at-risk account identification system for [PRODUCT]. Deliver: 1. Early warning signals (product, support, relationship indicators) 2. Alert triggers and ownership 3. Save playbook by risk type 4. Escalation to sales or leadership 5. Win/loss tracking for save attempts

Placeholders: [PRODUCT] Your product

■ **Tip:** 70% of churned customers showed warning signs 90+ days before churning. Build detection, not reaction.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #12

NPS Survey and Follow-Up

Design an NPS program for [PRODUCT] with segmented response playbooks.

You are a customer success leader at enterprise SaaS companies. Design an NPS program for [PRODUCT] with segmented response playbooks. Deliver: Survey: Timing + channel + questions Promoter response: Referral ask + case study request Passive response: Feature education + feedback collection Detractor response: Urgent CSM call within 24 hours + recovery playbook

Placeholders: [PRODUCT] Your product

■ **Tip:** Detractor follow-up within 24 hours recovers 30% of at-risk accounts. Speed is everything.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #13

Customer Feedback Loop

Design a closed-loop customer feedback system for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Design a closed-loop customer feedback system for [PRODUCT]. Deliver: 1. Collection: In-app, QBR, support, community 2. Categorization and routing 3. Product team handoff 4. Customer communication of action taken 5. Feature request tracking visible to customers

Placeholders: [PRODUCT] Your product

■ **Tip:** The feedback loop only closes when customers see their feedback become features.

ChatGPT ✓

Claude ✓

Gemini ✓

Section 3

Expansion & Upsell (6)

Prompt #14

Expansion Revenue Playbook

Build an expansion revenue playbook for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Build an expansion revenue playbook for [PRODUCT]. Deliver: Expansion motions: 1. Seat/license expansion (growth trigger) 2. Tier upgrade (usage limit approach) 3. Add-on cross-sell (complementary feature) 4. Multi-year deal conversion For each: Trigger event + who makes the ask + script + success metric

Placeholders: [PRODUCT] Your product

■ **Tip:** Expansion has zero CAC. 10% improvement in NRR is worth 10% new logo growth at a fraction of the cost.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #15

Upsell Opportunity Identification

Create an upsell opportunity identification framework for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Create an upsell opportunity identification framework for [PRODUCT]. Deliver: Signals that indicate expansion readiness: 1. Usage patterns (approaching plan limits) 2. Team growth (new department, new hires) 3. New use case discovery 4. Contract renewal approaching 5. QBR success metrics achieved For each signal: How to detect it + how to approach it

Placeholders: [PRODUCT] Your product

■ **Tip:** The best time to upsell is when a customer has just gotten a win. Time your expansion conversations accordingly.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #16

Multi-Year Contract Strategy

Build a strategy to convert [PRODUCT] customers from monthly to annual

You are a customer success leader at enterprise SaaS companies. Build a strategy to convert [PRODUCT] customers from monthly to annual or multi-year. Deliver: 1. Trigger timing (when to ask) 2. Value proposition for multi-year (savings + stability) 3. Conversation script 4. Discount framework 5. Multi-year contract terms to offer

Placeholders: [PRODUCT] Your product

■ **Tip:** Multi-year contracts reduce churn by 65%. The discount you give for annual is worth it.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #17

Executive Sponsor Engagement

Design an executive sponsor engagement program for [PRODUCT]'s enterpr

You are a customer success leader at enterprise SaaS companies. Design an executive sponsor engagement program for [PRODUCT]'s enterprise accounts. Deliver: 1. Why executive engagement protects deals 2. How to identify and gain access 3. Executive communication cadence 4. Content and topics for executives 5. Executive QBR design

Placeholders: [PRODUCT] Your product

■ **Tip:** Executive sponsors prevent the 'your champion left' churn scenario. Build the relationship before you need it.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #18

Land and Expand Strategy

Create a land-and-expand strategy for [PRODUCT] targeting enterprise a

You are a customer success leader at enterprise SaaS companies. Create a land-and-expand strategy for [PRODUCT] targeting enterprise accounts. Deliver: 1. Beachhead team/department identification 2. Success criteria for initial deployment 3. Internal champion development 4. Expansion triggers and approach 5. Organization-wide rollout playbook

Placeholders: [PRODUCT] Your product

■ **Tip:** Land with one team, prove value, then let your champion sell internally. Your internal champion is your best salesperson.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #19

Renewal Forecasting Model

Build a renewal forecasting model for [PRODUCT]'s CSM team.

You are a customer success leader at enterprise SaaS companies. Build a renewal forecasting model for [PRODUCT]'s CSM team. Deliver: 1. Renewal probability by health score band 2. Weighted ARR at risk calculation 3. CSM activity inputs to forecast 4. 90/60/30 day renewal playbook 5. Reporting to leadership

Placeholders: [PRODUCT] Your product

■ **Tip:** Renewal forecasting accuracy above 90% requires health scores. Gut feel forecasting is 60% accurate.

ChatGPT ✓

Claude ✓

Gemini ✓

Section 4

Churn Prevention (6)

Prompt #20

Churn Analysis Framework

Build a churn analysis framework for [PRODUCT] to understand and reduc

You are a customer success leader at enterprise SaaS companies. Build a churn analysis framework for [PRODUCT] to understand and reduce churn. Deliver: 1. Churn reason taxonomy (price, competition, no value, product gaps, lifecycle) 2. Exit survey design 3. Win/loss analysis by segment 4. Predictive churn model inputs 5. Churn reduction experiments by reason

Placeholders: [PRODUCT] Your product

■ **Tip:** Price is rarely the real reason for churn. It's the answer customers give when they don't feel comfortable saying 'your product didn't deliver value.'

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #21

Save Conversation Script

Write a save conversation script for [PRODUCT] customers who are consi

You are a customer success leader at enterprise SaaS companies. Write a save conversation script for [PRODUCT] customers who are considering cancelling. Deliver: 1. Opening (acknowledge without panic) 2. Discovery (what's really happening?) 3. Option presentation (pause/downgrade/enhanced support) 4. Escalation offer (bring in leadership) 5. Commitment to resolve + Script for 3 most common churn reasons

Placeholders: [PRODUCT] Your product

■ **Tip:** The best save conversations start with listening. Most CSMs start with selling.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #22

Churn Early Warning System

Build a churn early warning system for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Build a churn early warning system for [PRODUCT]. Deliver: 1. Warning signals by timeline (90/60/30 days before churn) 2. Alert routing (CSM → manager → executive) 3. Intervention playbook per signal 4. Time investment formula (is this account worth saving?) 5. Post-churn analysis process

Placeholders: [PRODUCT] Your product

■ **Tip:** Build detection, not reaction. The best time to prevent churn is 90 days before it happens.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #23

Downgrade Prevention Strategy

Create a downgrade prevention strategy for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Create a downgrade prevention strategy for [PRODUCT]. Deliver: 1. Downgrade request response script 2. Value reinforcement before downgrade conversations 3. Retention offer framework (what you can offer vs what you can't) 4. Grandfathering strategy 5. Downgrade approval thresholds

Placeholders: [PRODUCT] Your product

■ **Tip:** Treat downgrade requests like churn — address the root cause, not the symptom.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #24

Win-Back Campaign Design

Design a win-back campaign for churned [PRODUCT] customers.

You are a customer success leader at enterprise SaaS companies. Design a win-back campaign for churned [PRODUCT] customers. Deliver: Segmentation: Churned 30/60/90/180 days ago × reason for churn For each segment: Timing + message + offer + channel Win-back success metrics and ROI calculation

Placeholders: [PRODUCT] Your product

■ **Tip:** Churned customers are 60% easier to win back than new customers are to acquire. Most companies ignore them.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #25

Customer Success Technology Stack

Build the technology stack for [PRODUCT]'s customer success team.

You are a customer success leader at enterprise SaaS companies. Build the technology stack for [PRODUCT]'s customer success team. Deliver: CRM + CS platform (Gainsight/Totango/ChurnZero) + NPS tool + health score data sources + communication tools For each category: Options, pricing, integration requirements, decision criteria

Placeholders: [PRODUCT] Your product

■ **Tip:** A CS tech stack without clean data is expensive software with dashboards nobody trusts.

ChatGPT ✓

Claude ✓

Gemini ✓

Section 5

Advocacy & References (5)

Prompt #26

Customer Reference Program

Build a customer reference program for [COMPANY]'s sales team.

You are a customer success leader at enterprise SaaS companies. Build a customer reference program for [COMPANY]'s sales team. Deliver: 1. Reference customer identification and recruitment 2. Reference catalog (by use case, industry, company size) 3. Reference request process (protect from overuse) 4. Reference reward program 5. Reference relationship maintenance

Placeholders: [COMPANY] Company

■ **Tip:** Your best references are your fastest-growing customers. Their success story sells itself.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #27

Case Study Production System

Create a case study production process for [COMPANY].

You are a customer success leader at enterprise SaaS companies. Create a case study production process for [COMPANY]. Deliver: 1. Customer selection criteria 2. Outreach and permission process 3. Interview guide (5 questions) 4. Writing format (problem → solution → result) 5. Review and approval workflow 6. Distribution strategy

Placeholders: [COMPANY] Company

■ **Tip:** Quantified results in case studies ('43% reduction in X') outperform qualitative stories by 3x.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #28

G2/Capterra Review Generation

Write a review generation strategy for [PRODUCT] on [REVIEW PLATFORM].

You are a customer success leader at enterprise SaaS companies. Write a review generation strategy for [PRODUCT] on [REVIEW PLATFORM]. Deliver: 1. When to ask (after first value win) 2. Who to ask (NPS 8-10 customers first) 3. How to ask (email + in-app + CSM personal ask) 4. Review response strategy 5. Monthly review targets

Placeholders: [PRODUCT] Your product [REVIEW PLATFORM] G2/Capterra/Trustpilot

■ **Tip:** G2 reviews drive 30-40% of B2B SaaS self-serve pipeline. Treat review generation like lead generation.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #29

Customer Advisory Board Design

Design a customer advisory board (CAB) for [COMPANY].

You are a customer success leader at enterprise SaaS companies. Design a customer advisory board (CAB) for [COMPANY]. Deliver: 1. CAB purpose (roadmap input, executive relationships, advocacy) 2. Member selection criteria and recruitment 3. Meeting cadence and agenda 4. What you give back to CAB members 5. Between-meeting engagement

Placeholders: [COMPANY] Company

■ **Tip:** CAB members churn at 90% lower rates. Being on the board creates psychological ownership.

ChatGPT ✓

Claude ✓

Gemini ✓

Prompt #30

Advocate Marketing Program

Build an advocate marketing program for [PRODUCT].

You are a customer success leader at enterprise SaaS companies. Build an advocate marketing program for [PRODUCT]. Deliver: 1. Advocate identification (power users + NPS 9-10) 2. Advocate activities (reviews, referrals, case studies, speaking) 3. Recognition and rewards 4. Advocate communication cadence 5. Advocate-generated content program

Placeholders: [PRODUCT] Your product

■ **Tip:** Advocates are your most credible sales channel. Their word is worth 10x your marketing spend.
