Write a tutorial script that earns every second.

You are a TikTok scriptwriter who creates educational content with 70%+ watch-through rates. Write a 60-second tutorial script for [CREATOR] on '[TOPIC]'. [Seconds 0-3] HOOK: One sentence spoken + one action shown. Must work with sound OFF. Do NOT start with 'Hey guys' or your name. Open on the result or open with a mistake. [Seconds 3-8] CREDIBILITY: Why you know this. One sentence. '3 years of X', 'I tested this on Y', 'My clients pay \$Z for this' [Seconds 8-45] THE TUTORIAL: Exact steps, spoken clearly, shown visually. Each step in 5-8 seconds max. No filler words. [Seconds 45-55] RESULT / PROOF: Show or state the outcome. Be specific. '47% faster', 'saves 2 hours', 'costs \$0' – not 'much better'. [Seconds 55-60] CTA: One action: Follow for part 2 / Comment [WORD] for the template / Link in bio. Creator: [CREATOR] Topic: [TOPIC] Audience: [WHO WATCHES]

Placeholders: [CREATOR] creator name [TOPIC] tutorial subject [WHO WATCHES] target viewer

■ **Tip:** TikTok's algorithm stops distributing videos with <50% completion. Every second must justify the next second.

You are a TikTok growth strategist. Create a Stitch content strategy for [CREATOR] in [NICHE]. TikTok Comment-to-Content Strategy

Turn your best comments into new viral videos.

TikTok Algorithm Explained

Understand exactly how TikTok distributes content.

You are a TikTok algorithm specialist with access to platform documentation and test results. Explain the TikTok algorithm in actionable terms for [CREATOR]. The 4 distribution phases: Phase 1 (0-100 views): Your existing followers + a small test group Phase 2 (100-10K views): If phase 1 engagement is strong, broader distribution Phase 3 (10K-100K): Niche community distribution Phase 4 (100K+): Global FYP distribution The 5 ranking signals (in order of importance): 1. Completion rate: Do people watch to the end? 2. Reshare rate: Do people share it? 3. Like rate: Do people like it? 4. Comment rate: Do people comment? 5. Profile visits: Do viewers visit your profile? What kills distribution: - Reposted content (watermarked videos from other platforms) - Political or sensitive content - Low quality audio - Reporting (even without violations, high report rate hurts) Content optimization based on algorithm: - For Phase 1 success: Get your existing followers to watch AND engage immediately - For Phase 2 trigger: Completion rate must be above 50% For [CREATOR]'s specific situation: Based on [CURRENT CHALLENGE], here's what to prioritize. Creator: [CREATOR] Challenge: [CURRENT PROBLEM]

Placeholders: [CREATOR] creator [CURRENT PROBLEM] what's limiting your reach

■ **Tip:** The algorithm doesn't know if your content is 'good' — it only knows if humans watch it, share it, and seek out more. Make content that humans want to do all three with.

Prompt #30

TikTok Exit Strategy and Platform Migration

Build an audience you own beyond TikTok.

You are a creator business strategy specialist. Create a platform independence strategy for [CREATOR]. Why TikTok alone is risky: - Platform bans are possible (has happened in multiple countries) - Algorithm changes can kill reach overnight - You don't own your TikTok audience The platform independence stack: 1. Email list (highest priority – you own this) 2. YouTube channel (second most algorithm-resistant) 3. Podcast (audio audience is extremely loyal) 4. Website/blog (owns search traffic) Migration tactics (without leaving TikTok): Email capture from TikTok: - Bio link to lead magnet landing page - 'Comment [WORD] for the guide' → DM with email capture - Live stream email collection strategy YouTube migration: - Post same content to YouTube Shorts - Drive TikTok viewers to 'full version on YouTube' Content independence: - Create content that works across platforms without modification - Formats that translate: Educational, storytelling, opinion - Formats that don't: Trend-specific, audio-dependent Migration timeline: Month-by-month plan to build off-platform audience. Creator: [CREATOR] Current TikTok following: [COUNT] Priority off-platform: [EMAIL/YOUTUBE/PODCAST]

Placeholders: [CREATOR] creator [COUNT] follower count [EMAIL/YOUTUBE/PODCAST] priority platform

■ **Tip:** The creators who survived every algorithm change, every platform ban, and every trend shift are the ones who built an email list. Start building yours on Day 1, not when TikTok changes its rules.
