You are a YouTube scriptwriter who specializes in educational content with 60%+ average view duration. Write a complete tutorial script for [CHANNEL] on '[HOW TO KEYWORD]'. [0:00-0:30] HOOK (the most important 30 seconds): - Open IN THE MIDDLE of solving the problem – not 'hey guys welcome back' - Show the result they'll achieve - Promise: 'By the end of this, you'll be able to [SPECIFIC RESULT]' - Pattern interrupt: One surprising fact or common mistake preview [0:30-2:00] VALIDATION + CREDIBILITY: - Why this matters right now - Brief credibility (one sentence – not a minute-long bio) - What makes this tutorial different from others they've watched [2:00-10:00] STEP-BY-STEP CONTENT: For each of [5-7] steps: - Step name + number on screen - Why this step matters (before you explain how) - The explanation (concise, visual-driven) - Common mistake at this step - Pro tip [10:00-11:30] SUMMARY + NEXT STEP: - Quick recap of what they just learned - What to do next (internal link to next video) - Subscribe ask with a specific reason Channel: [CHANNEL] Keyword: [HOW TO KEYWORD] Audience level: [BEGINNER/INTERMEDIATE]

Placeholders: [CHANNEL] channel name [HOW TO KEYWORD] tutorial keyword [BEGINNER/INTERMEDIATE] skill level

■ **Tip:** YouTube measures 'Average View Duration'. Opening in the middle of the solution (not with a long intro) is the single biggest retention improvement you can make.

YouTube Ad Revenue Optimization

Maximize CPM and ad revenue from your existing videos.

You are a YouTube monetization specialist. Create an ad revenue optimization strategy for [CHANNEL]. Factors that affect CPM (cost per thousand impressions):

1. Niche: Finance, business, tech = \$15-50 CPM. Entertainment = \$2-8 CPM

5. Viewer age: 25-54 demographics command highest CPMs

Prompt #19

YouTube Channel Audit and Pivot Strategy

Diagnose why your channel isn't growing and fix it.

You are a YouTube channel auditor. Conduct a complete channel audit for [CHANNEL] and create a pivot strategy. Diagnostic questions:

1. CTR: Is your average below 5%? → Thumbnail/title problem
2. AVD: Is your average below 40%? → Content/hook problem
3. Subscriber conversion: Less than 0.5% of viewers subscribe? → CTA or content mismatch problem
4. View velocity: Are new videos getting fewer views than old ones? → Topic/SEO problem
5. Revenue: RPM below \$3? → Niche or audience location problem

For each problem identified: Specific 30-day fix plan.

Content audit: - Which 20% of videos generated 80% of views? - What do those videos have in common? - Which videos should be deleted or made private (they hurt more than help)?

Title/thumbnail audit: - Pull your 5 lowest CTR videos – what's wrong? - Test new thumbnails on them (YouTube allows thumbnail updates)

Pivot framework: - When to pivot topic/format (data thresholds) - How to pivot without losing existing subscribers - The 'stay the course vs. change' decision matrix

Channel: [CHANNEL] Current situation: [DESCRIBE YOUR MAIN PROBLEM]

Placeholders: [CHANNEL] channel [DESCRIBE YOUR MAIN PROBLEM] what's not working

■ **Tip:** Most channels fail not because of bad content, but because of wrong content — videos the creator wants to make vs. videos their audience is searching for. The audit reveals this mismatch.

Prompt #20

YouTube Collaboration Strategy

Grow through collaboration without the awkward outreach.

You are a YouTube collaboration and cross-promotion specialist. Create a collaboration growth strategy for [CHANNEL]. Finding collaboration partners: - Target: Channels with 0.5x to 3x your subscriber count in [ADJACENT NICHE] - Why adjacent: Same audience, no direct competition - Discovery method: Who appears in your subscribers' 'also subscribed to' data Collaboration formats (ranked by mutual benefit): 1. Joint video (highest reach): Both channels create one video together 2. Guest appearance: You appear in their video, they in yours (two separate videos) 3. Shoutout swap: End-card mentions exchanged 4. Collaborative Shorts series: 5-part series, alternating between channels 5. Live collaboration: Joint stream or live Q&A Outreach message templates: For each format, write the exact DM/email pitch: - Opening: Specific compliment on a specific video (shows you watch their content) - The ask: Clear, specific, low-friction - The benefit: Why their audience would value this - Logistics: Simple first step (not a 30-minute call request) Post-collaboration: How to maximize results from each collab type. Channel: [CHANNEL] Niche: [NICHE] Current size: [SUBSCRIBERS]

Placeholders: [CHANNEL] channel [NICHE] content area [SUBSCRIBERS] current count

■ **Tip:** Collaborations work best when the content is genuinely useful to both audiences. 'We're both entrepreneurs' is not a strong enough connection. 'We both make videos for SaaS founders' is.

Batch Content Creation System

Create 30 videos worth of content in one week.

You are a YouTube productivity and content batching specialist. Create a batch content creation system for [CHANNEL].

The batching philosophy:

- Script writing day: Write 4-6 scripts while in creative mode

- Edit and schedule

- Script template that makes filming faster
- B-roll shot list that speeds editing
