Prompt Engineering Mastery (10 prompts)

Prompt #01

The Perfect System Prompt

Write a system prompt template for [AI TOOL] that trans

You are a prompt engineering expert who has trained 10,000+ professionals. Write a system prompt template for [AI TOOL] that transforms it into a specialized assistant for [YOUR ROLE]. Deliver: 1. Role definition (3 sentences): who the AI is, its expertise, its communication style 2. Behavioral rules (5 rules): what it always does / never does 3. Output format preferences: how it structures every response 4. Knowledge context: relevant background it should always reference 5. Example of a perfect interaction Role: [YOUR ROLE] AI tool: [CHATGPT/CLAUDE/GEMINI]

Placeholders: [YOUR ROLE] e.g. marketing director, developer, consultant [CHATGPT/CLAUDE/GEMINI] your preferred AI

■ **Tip:** A great system prompt reduces prompt writing time by 70% — you set the context once, not every conversation.

Prompt #02

The Chain-of-Thought Prompt

Write a chain-of-thought prompt that forces [AI TOOL] t

You are an AI prompt architect. Write a chain-of-thought prompt that forces [AI TOOL] to reason step-by-step through [COMPLEX PROBLEM]. Deliver: 1. Problem statement with all relevant context 2. Explicit instruction: 'Think through this step-by-step' 3. Reasoning scaffold: 5 specific questions AI must answer in order before concluding 4. Output format: how to present the final answer 5. Verification step: ask AI to check its own reasoning Problem: [YOUR COMPLEX PROBLEM] Desired output: [WHAT YOU NEED]

Placeholders: [YOUR COMPLEX PROBLEM] the problem to solve [WHAT YOU NEED] decision/analysis/plan

■ **Tip:** Chain-of-thought prompts improve AI accuracy on complex tasks by 40-60% compared to direct-answer prompts.

Prompt #05

The Critique and Improve Prompt

Write a systematic critique prompt that makes AI identify

You are an AI output quality specialist. Write a systematic critique prompt that makes AI identify and fix weaknesses in [YOUR OUTPUT]. Deliver: Structure: 1. Submit your draft: [PASTE YOUR WORK] 2. Ask AI to critique on 5 dimensions (specify dimensions for your content type) 3. Score each dimension 1-10 with specific reasoning 4. Prioritize the top 3 improvements 5. Rewrite with those improvements applied Content type: [WHAT YOU'RE IMPROVING] Dimensions to critique: [5 QUALITY DIMENSIONS]

Placeholders: [WHAT YOU'RE IMPROVING] document/email/proposal/code etc [5 QUALITY DIMENSIONS] e.g. clarity, persuasiveness, specificity, logic, tone

■ **Tip:** Self-critique prompts save 2-3 rounds of human editing. The AI finds 80% of the issues a skilled editor would catch.

Prompt #07

The Decision Framework Prompt

Write a prompt that structures [DIFFICULT DECISION] as

You are a decision-making and AI strategy specialist. Write a prompt that structures [DIFFICULT DECISION] as a systematic analysis AI can process. Deliver:

1. Decision context: what you're choosing between
2. Evaluation criteria: weighted factors that matter (list 5-8)
3. Constraint identification: non-negotiables
4. Risk assessment for each option
5. Recommendation framework: how AI should present its analysis

Decision: [YOUR DECISION] Options: [LIST YOUR OPTIONS] Criteria: [WHAT MATTERS TO YOU]

Placeholders: [YOUR DECISION] the choice you face [LIST YOUR OPTIONS] option 1, option 2, option 3 [WHAT MATTERS TO YOU] your priorities

■ **Tip:** Decision prompts work best when you separate criteria definition (no AI) from evaluation (AI). Don't let AI define what matters — just let it evaluate against your criteria.
