Keyword Research (5 prompts)

Prompt #01

Keyword Cluster Builder

Map a full keyword cluster around one topic.

You are an SEO keyword research specialist who has ranked 500+ articles in competitive niches. Build a keyword cluster for [MAIN TOPIC] targeting [AUDIENCE]. Deliver: 1. Seed keyword (the core head term) + monthly search volume estimate + keyword difficulty (easy/medium/hard) 2. 10 long-tail variations: - 4 question-based ('how to', 'what is', 'best way to') - 3 comparison ('X vs Y', 'alternatives to X') - 3 transactional ('buy X', 'X price', 'X review') 3. Search intent for each: informational / commercial / transactional 4. Recommended content format for each keyword (guide / listicle / comparison / landing page) 5. Quick wins: Top 3 keywords with high volume + low difficulty 6. Content gap: 3 keywords your competitors rank for that you should target next Niche: [YOUR NICHE] Target audience: [WHO IS SEARCHING]

Placeholders: [MAIN TOPIC] core topic [AUDIENCE] target reader [YOUR NICHE] industry [WHO IS SEARCHING] searcher profile

■ **Tip:** Long-tail keywords convert 3x better and are 5x easier to rank. Build your content around clusters, not isolated keywords.

Prompt #02

Competitor Content Gap Analysis

Find what competitors rank for that you don't.

You are an SEO competitive analyst. Conduct a content gap analysis for [YOUR WEBSITE] against [COMPETITOR 1] and [COMPETITOR 2]. Analysis process: 1. Topic gaps: Subjects both competitors cover that you haven't touched 2. Keyword stealing opportunities: Terms where competitors rank on page 2-3 (beatable) 3. Format gaps: Topics they cover as text you could do better with video or infographic 4. Question gaps: Questions your audience asks that nobody answers well 5. Long-tail opportunities: 3+ word phrases underserved in your niche For each gap found: - Recommended article title - Target keyword + estimated monthly searches - Content type (guide / listicle / tool / template) - Difficulty estimate (1-5) and time to rank estimate - Priority score (impact × ease ÷ competition) Top 5 priority gaps to fill in the next 90 days. Your site: [YOUR WEBSITE] Competitor 1: [COMPETITOR 1] Competitor 2: [COMPETITOR 2]

Placeholders: [YOUR WEBSITE] your site URL or description [COMPETITOR 1] top competitor [COMPETITOR 2] second competitor

■ **Tip:** Content gaps are your fastest ranking opportunities — competitors have already validated the demand, you just need to do it better.

Prompt #03

90-Day SEO Content Calendar

Plan a quarter of content that builds topical authority.

You are an SEO content strategist. Create a 90-day content calendar for [WEBSITE] building authority in [TOPIC]. Month 1 – Foundation (4 pillar articles): For each pillar: Title + primary keyword + target search intent + word count target + internal link plan Pillars should be 2,000+ words on broad sub-topics of [MAIN TOPIC] Month 2 – Cluster (8 supporting articles): Each supports one of the 4 pillars Title + keyword + which pillar it links to + content angle Month 3 – Conversion (4 commercial + 2 link-building pieces): Commercial: Comparison pages, best-of lists, product/service pages Link-building: Data study, original research, or controversial opinion piece For each article: Publish date + expected word count + CTA type Also: Internal linking map showing how all 18 pieces connect. Website: [WEBSITE] Main topic: [MAIN TOPIC] Target audience: [READER]

Placeholders: [WEBSITE] site name [MAIN TOPIC] content focus [READER] target reader

■ **Tip:** Topic clusters rank 40% faster than isolated articles. Always link supporting posts to their pillar within the first 48 hours of publishing.

Prompt #04

Search Intent Analysis Framework

Match your content to what Google actually wants to rank.

You are an SEO search intent specialist. Analyze search intent for these keywords and prescribe exact content format: [KEYWORD LIST] For each keyword deliver: 1. Intent classification: - Informational (want to learn) - Navigational (looking for a specific site) - Commercial (researching before buying) - Transactional (ready to buy) 2. SERP feature type (featured snippet / image pack / People Also Ask / local pack) 3. Recommended content format (based on what ranks now): - Article type: how-to / listicle / comparison / definition / review - Optimal word count range 4. Must-include sections (based on what top 5 results have) 5. One angle you could take that none of the current top 5 uses 6. Schema markup recommendation (FAQ / HowTo / Article / Product) Why this matters: Mismatched intent = near-zero chance of ranking, regardless of other optimization. Keywords to analyze: [KEYWORD LIST] Industry: [INDUSTRY]

Placeholders: [KEYWORD LIST] paste your keywords here (one per line) [INDUSTRY] your niche

■ **Tip:** 87% of articles that don't rank have intent mismatch as the primary reason — not backlinks, not technical issues.

Prompt #05

Topical Authority Map

Build a semantic content structure that dominates a niche.

You are a topical authority and semantic SEO specialist. Build a topical authority map for [MAIN TOPIC] for [WEBSITE]. Deliverables: 1. Core topic definition: The exact scope Google needs to classify [WEBSITE] as an authority 2. Sub-topic hierarchy (3 levels): Level 1: 5-7 major sub-categories Level 2: For each L1, 3-5 article topics Level 3: For each L2, 2-3 supporting pieces 3. Entity map: Related concepts, brands, people, and places Google associates with [MAIN TOPIC] 4. Coverage score estimate: What % of the topic space does your current content cover? 5. Priority sequencing: Which articles to write first for maximum authority signal speed 6. Cannibalization check: Topics where you might create competing articles Target: Full topical coverage within [TIMEFRAME] Website: [WEBSITE] Main topic: [MAIN TOPIC] Competitor reference: [TOP RANKING SITE]

Placeholders: [WEBSITE] your site [MAIN TOPIC] topic to own [TIMEFRAME] e.g. 6 months [TOP RANKING SITE] site dominating your niche

■ **Tip:** Topical authority is the #1 ranking factor in competitive niches post-2023 Helpful Content Update.

Writing & Optimization (10 prompts)

Prompt #06

Pillar Article Framework

Structure a 2,000+ word article that ranks and retains readers.

You are an SEO content writer who has ranked 100+ articles on page 1. Write a complete framework for a pillar article targeting [PRIMARY KEYWORD]. 1. SEO-optimized title (60 characters, keyword in first 3 words, includes a number or power word) 2. Meta description (155 characters, includes keyword, has a benefit + soft CTA) 3. H1 (closely matches title but not identical) 4. Introduction (150 words): - Open with the searcher's pain or desire - no 'Welcome to my article' - Keyword appears naturally within first 100 words - Promise what they'll learn - Hook that keeps them reading 5. Table of contents 6. 6-8 H2 sections (one per major sub-topic): For each H2: Subheading + 200-word outline + relevant H3 ideas + where to link internally 7. FAQ section: 5 People Also Ask questions from Google + 50-word answers each 8. Conclusion: Summarize + CTA + what to read next 9. Internal link opportunities (4-6 spots with suggested anchor text) Keyword: [PRIMARY KEYWORD] Target length: [WORD COUNT]

Placeholders: [PRIMARY KEYWORD] main keyword [WORD COUNT] e.g. 2,500 words

■ **Tip:** Articles matching SERP average word count $\pm 20\%$ outrank both shorter and significantly longer competitors.

Prompt #07

Listicle Article That Earns Featured Snippets

Write a ranking listicle optimized for snippet capture.

You are an SEO listicle writer. Write a framework for '[NUMBER] Best [TOPIC]' targeting [PRIMARY KEYWORD]. 1. Title formula: [Number] + power adjective + [Topic] + year (e.g. '15 Best Free CRM Tools in 2025') 2. Introduction (100 words): What the list covers + selection criteria (how did you choose these?) + who it's for 3. Comparison table: 8 rows across all items (place at top – featured snippet bait) 4. For each list item: - H2 or H3 heading (descriptive name, not just the product name) - Best for: (one specific use case) - Key features: 3 bullets - Pros: 2 specific - Cons: 2 honest - Pricing snapshot - Bottom line verdict (1 sentence) 5. FAQ section: 5 questions from Google PAA 6. How we chose: Methodology section (300 words) – builds trust and E-E-A-T 7. Final verdict: Clear winner + 'choose X if...' statements Keyword: [PRIMARY KEYWORD] Number of items: [NUMBER]

Placeholders: [PRIMARY KEYWORD] keyword [NUMBER] list size

■ **Tip:** Listicles with comparison tables appear in featured snippets 60% more often than those without.

Prompt #08

How-To Guide That Ranks and Converts

Write step-by-step guides that rank and drive action.

You are an SEO how-to content specialist. Write a ranking how-to guide targeting '[HOW TO KEYWORD]'. 1. Title: 'How to [KEYWORD] in [TIMEFRAME]' – include timeframe when honest and specific 2. Introduction (100 words): - Open with the problem that makes this guide necessary - State what they'll be able to do after reading - Quick overview of the approach 3. Prerequisites / What you'll need: Simple bulleted list 4. Step-by-step instructions (5-10 steps): For each step: - H2 heading: Action verb first ('Install X', 'Configure Y', 'Test Z') - Body (150-250 words): Explain + context + why this step matters - Screenshot placeholder description - Pro tip (unique insight not in other guides) - Common mistake at this step and how to avoid it 5. Troubleshooting section: Top 5 problems + solutions 6. FAQ: 5 questions from PAA 7. Next steps: What to do after completing the guide + internal links Keyword: [HOW TO KEYWORD] Audience level: [BEGINNER/INTERMEDIATE/ADVANCED]

Placeholders: [HOW TO KEYWORD] your how-to keyword [BEGINNER/INTERMEDIATE/ADVANCED] skill level

■ **Tip:** How-to articles with numbered steps rank for featured snippets 70% more often than those without clear step structure.

Prompt #11

Meta Title and Description Optimization System

Write click-maximizing meta tags at scale.

You are an on-page SEO and CRO specialist. Write optimized meta titles and descriptions for [NUMBER] pages. For each page, provide: Meta Title (55-60 characters): - Primary keyword in first 3-4 words - Include a power word (Best, Ultimate, Complete, Proven, Expert) - Include the year for evergreen content - Brand name at end if space allows (| BrandName) - Must not be cut off at 60 characters Meta Description (145-155 characters): - Primary keyword appears naturally in first half - Clear value proposition: what they'll get - Secondary keyword woven in naturally - Soft CTA: ('Learn how', 'Discover', 'See why', 'Find out') - Unique – no two pages should have similar descriptions Open Graph title and description for social sharing (can differ from meta). Pages to optimize: [LIST YOUR PAGES AND THEIR KEYWORDS] Brand name: [BRAND]

Placeholders: [NUMBER] number of pages to optimize [LIST YOUR PAGES AND THEIR KEYWORDS] page titles and keywords [BRAND] your brand name

■ **Tip:** Meta titles with a power word see 20-30% higher CTR. Higher CTR is a direct ranking signal — it shows Google your result is preferred.

Prompt #13

Featured Snippet Optimization

Capture featured snippets for high-value keywords.

You are a featured snippet capture specialist. Optimize content for [TARGET KEYWORD] to capture the featured snippet. Step 1: Identify likely snippet type for [TARGET KEYWORD]: - Paragraph (40-50 word direct answer) - Numbered list (step-by-step process) - Bulleted list (unordered items) - Table (comparative data) - Video (timestamp at relevant moment) Step 2: Write the exact snippet-optimized content: For paragraph snippets: Write a 40-50 word answer that starts with '[TARGET KEYWORD] is/are/means...' or 'To [ACTION], you need to...' For list snippets: Write 8 items max, each under 8 words Step 3: H2 phrasing: Match or closely echo the query as a header Step 4: Schema markup: Recommend the appropriate schema type Step 5: People Also Ask (PAA) questions to answer in the same article: List 5 PAA questions + 50-word answers for each Step 6: What to change in the existing article to win the snippet. Target keyword: [TARGET KEYWORD] Current ranking position: [POSITION]

Placeholders: [TARGET KEYWORD] keyword targeting featured snippet [POSITION] e.g. position 4

■ **Tip:** Featured snippets get 8% average CTR vs 2% for position 1 without snippet. Capturing one often doubles organic traffic from that keyword.

Prompt #14

Content Refresh Strategy

Update old content to recapture lost rankings.

You are an SEO content refresh specialist. Create a refresh plan for [ARTICLE TITLE] targeting [PRIMARY KEYWORD]. Step 1 – Audit checklist: ■ Current ranking and traffic trend (declining, stable, growing?) ■ Content outdated? Check: statistics, examples, tools mentioned, year references ■ Missing sections that top 3 competitors have ■ Keyword cannibalization? Does another page compete for the same keyword? ■ Technical: broken links, missing images, slow load, mobile issues Step 2 – Refresh actions: 1. Rewrite the introduction (first 150 words) to match current search intent 2. Update all statistics, data, and examples to current year 3. Add 2-3 sections that competitors have but you don't 4. Improve heading structure for featured snippet potential 5. Add FAQ section with PAA questions 6. Update internal links to newer articles 7. Rewrite meta title and description 8. Add a 'Last Updated: [DATE]' stamp – signals freshness Step 3 – After refresh: - Fetch and render in Google Search Console - Submit updated sitemap - Share on social + email to 'refresh' the content Article: [ARTICLE TITLE] Keyword: [PRIMARY KEYWORD]

Placeholders: [ARTICLE TITLE] article to refresh [PRIMARY KEYWORD] main keyword

■ **Tip:** Refreshing existing content generates 300% more traffic than publishing new content on the same topic. Prioritize your declining top-20 articles first.

Prompt #15

SEO Content Brief Template

Write briefs that produce first-draft-ready articles.

You are an SEO content strategy specialist. Create a comprehensive content brief for [ARTICLE TITLE]. Brief Sections: 1. Business objective: Why are we writing this? What action should it drive? 2. Target keyword: Primary + 3-5 secondary + LSI keywords to weave in 3. Search intent: What exactly is the searcher trying to accomplish? 4. Target reader: Profile (not demographic – mindset, knowledge level, what they've already tried) 5. Competitor analysis: Top 3 ranking articles + what they cover + what they're missing 6. Required article structure: - Exact H2 and H3 headings (in order) - Required sections (don't omit) - Optional sections (add if space) 7. Word count target: Based on SERP average analysis 8. Must-include elements: - Specific data points or statistics to find and cite - Expert quotes to source - Images/media needed - Schema markup type 9. Internal links to include: 3-5 specific articles + anchor text 10. CTA: What should readers do after reading? Keyword: [PRIMARY KEYWORD] Assigned writer skill level: [BEGINNER/EXPERT]

Placeholders: [ARTICLE TITLE] article title [PRIMARY KEYWORD] main keyword [BEGINNER/EXPERT] writer level

■ **Tip:** Detailed briefs reduce revision rounds from 4-5 to 1-2. A 2-hour brief saves 8 hours of editing.
